## SELECTO CRIANZA 2022

**VARIETIES:** Tempranillo 100%.

**2022 VINTAGE:** The rain received in the winter of the previous year provided a much-needed water reserve throughout the vineyard cycle in 2022. The drought, which was very severe, was only interrupted by the rains in September, causing the fruit ripening to be very uneven depending on the location of the vineyard. The cooler areas around Haro village prevented an early harvest. The D.O.Ca. Rioja rated this vintage as Very Good.

**VINEYARD:** Lacuesta Selecto Crianza is made from Tempranillo grapes from 30 years old vineyards, situated in Haro village and surroundings, the heart of Rioja Alta sub-region. The nutrient-poor clay-limestone soils are covered by pebbles. They define the personality of the Tempranillo grape variety in this area.

**WINEMAKING:** Harvesting started the 19th of September. Once the bunches were received in the winery and destemmed, alcoholic fermentation took place at a low temperature in stainless steel tanks. Malolactic fermentation lasted 42 days. During spring of 2023, the wine started the barrel ageing, for 12 months. 2 manual rackings were practiced, following the traditional gravity method. After a few months bottled, Selecto Crianza its ready to enjoy it.

**TASTING NOTES:** Lacuesta Selecto Crianza 2022 is a wine designed for pure enjoyment. We carefully select grapes ensuring they preserve their most pleasant, youthful, fresh, and fruity character. With the subtle influence of the barrels, we create a balanced and seductive wine, perfect for enjoying in a relaxed atmosphere.

**Alcohol:** 14% **pH:** 3,63 **Acidity:** 5,5 g/l
